W. W. BROWN, PIONEER RESIDENT, PASSES

Gleichen Community lost one of its oldest residents in the sudden passing of Mr. Walter Williams Brown on Saturday afternoon. Mr. Brown had celebrated his 80th birthday on April 4 of this year.

Born in Brownsville, Ontario in 1867 son of Mr. and Mrs. Enoch Burdick Brown, he was the sixth child in a family of nine in which the circle remained unbroken by death for 62 years. Three brothers and one sister predeceased him.

He received his primary school education in Brownsville, later attending Teacher's College at Tilsonburg and teaching for a time at Summer's Corners School. This was followed by a course as Surveying Engineer in the University at Belleville where he was awarded a number of valuable and much coveted scholarships.

In 1887 he was seized with a desire to join in the pioneer life of the West securing passage by attending a load of live stock en route to Calgary. He first saw Calgary when there were only a few scattered buildings where now stands the City of the Foothills.

Here he met Whi elock of Chiloks and was hired to work on the Bar U Ranch. During his first winter in the est he worked with William Roper Hull killing Beef for the Indians. In the spring he returned to the Bar U Ranch and spent that summer driving horses to Wetaskiwin. After working for Angus Sparrow for about 10 years he bought 17 colts from Sam Howe, broke and sold them, and thus began ranching for himself, moving to what is known as the Hippo Ranch in the vicinity of where the Carseland bridge now stands.

A year later he took up the Heap Sea Ranch south of Strathmore. Later he also bought a ranch on the Red Deer near Finnegan's Ferry.

At Crossfield he met Miss Minnie McCormick and they were married on Christmas Day, 1906. Mrs. Brown predeceased him on August 3, 1939.

He moved to Gleichen in 1915 to provide educational opportunities for his family and here he built a very fine house. He leaves to mourn his loss four children: Vivian, Laurier, Georgina, and Arthur, as well as six grandchildren.

An active member of the Old Timer's Association, his other interests included membership in the Masonic Order for more than forty years and at the time of his passing he was Worthy Patron of the Eastern Stars.

His funeral was held from the United Church at Gleichen on Tuesday afternoon at 2 o'clock, interment in

TOWN COUNCIL HOLDS MEETING

A mill rate of 60 mills, recommended at the last meeting of the Council, was given the final okay on Tuesday night at a Council meeting attended by all councillors. This is made up of 51 mills for the schools and 29 mills for general purposes. It was agreed that a discount of five percent should be allowed for taxes paid prior to the 31st of July.

It was agreed that, since there is an increasing number of peddlers and sales agents going through town, more protection should be given the local merchants, and also the local buyers, who sometimes are buying trash, and paying higher than market prices. A by-law will therefore be submitted at the next meeting, covering licensing of all such traders.

An application to enlarge a basement and to build onto a local home were both approved.

After checking through the applications for the post of Town Policeman, it was agreed that Mr. Bill Tew be appointed to the office, his duties to commence immediately. Arrangements will be made to buy Mr. Tew a uniform.

Following application to buy a lot next to a home, it was pointed out that this sale would leave a single lot in the block, and it is contrary to established practise. It was suggested that the Town offer two lots to the customer.

Two complaints received on assessments, were referred to a Court of Appeal, at which time it is hoped to have the assessor present.

A committee of Councillors Patrick an Smith were delegated to check over the application for permission to establish curb crossings on Main Street.

Since a complaint had been received about horses running loose, and destroying gardens, it was agreed to ask the complainants to lay charges against the owner, in order to take action.

It was agreed that the new policeman should be instructed to start immediately to check on traffic observance in town with special emphasis on parking. One point brought out was the practice of parking gas trucks, and gas drums, for some time, thereby constituting an unnecessary fire hazard.

A point referred to the Fire and Light Committee was the possible purchase of new fire extinguishers for gas and oil fires. It was suggested that with so many more gas and oil burners being installed in homes and buildings, there may be more fires of this type, and the one extinguisher presntly on the truck might not be sufficient.

It was agreed that when the new fire siren is fully installed, the daily test should be carried out at 12 o.clock noon. A query was received with reguard to the ringing of the fire bell after installation of the siren, and in this connection it was pointed out that fires often occasion electric failures, or are caused by them, and it was deemed unwise to discontinue ringing the bell. It was pointed out also that in a recent test, some people had not heard the siren who can hear the bell clearly. On the other hand, reports were brought in from people who had heard the siren in the outer regions of the town.

A suggestion was made, following the talk about licensing peddlers of instituting a business tax in town in order to cut down the tax cost to the house owner. A comparison was made with the actual tax paid on similar homes in Calgary and in Strathmore, showing the way in which local taxpayers are penalized.

Following discussion for some time, it was suggested that the finance committee take the matter under consideration for some time, and try to estimate what revenue could be obtained, along with what drop would be effected in the millrate. Comparison with other towns will be made.

Accounts to the amount of $155.00 were passed.

CROWFOOT

—By Mrs. J. S.—

A most enjoyable event in Crowfoot's Social Calender took place at the attractive home of Mrs. Chas. Harvey on Wednesday afternoon of last week, when the ladies of the Goodwill Club assembled to honor Crowfoot's most recent bride, Mrs. Clifford Garriott, and also to celebrate the birthdays of two sister members Mrs. Gladys Morgan and Mrs. Joy Scheer.

A report on the Club's business activities and financial statement were given by the secretary-treasurer followed by a keen and sprightly discussion on Gardening. A clever and amusing paper on "Don'ts for Gardening" was read by Mrs. Allie Garriott.

The contest was thought-provoking, and proved an interesting diversion, and Mrs. Albert Desmet was the fortunate winner of the pretty prize.

Then on behalf of all the Club members Mrs. Pat Morgan presented Mrs. Allie Garriott with six sterling silver teaspoons in Louis IV design, accompanied with every good wish for the future health, happiness, and prosperity of the young bride.

The crystal bowl of gorgeous roses in tones of shell pink, yellow, and bronze that graced the centre of the long tea table and flanked by tall yellow candles brought many admiring glances and exclamations of pleasure from the guests. The tempting array of choice refreshments proved too great a temptation, and the tiresome business of dieting and watching the waistline was completely forgotten as everyone did full justice to the delicious food. The birthday cakes with their small, lighted candles, were decorative and duly admired as the lovely age old songs 'Happy Birthday to You' and 'They are Jolly Good Fellows' were sung.

It was a delightful afternoon, spent in the warmth and friendliness of a hospitable home. The significance of little, lighted candles on birthday cakes, the goodwill wishes to a young bride, and the dear faces of good friends and neighbours around a prettily appointed tea table all contributed to the passing of another milestone in the Goodwill Club.

The next meeting of the Club will be held at the home of Mrs. Jas. Barnett on June 4th. The roll call will be answered by "Hints on Cooking."

The Envy of The World

The peoples of the United States and Canada have standards of living so far above the rest of the world that there is really no comparison. Brazil's wartime foreign minister, Don Oswaldo Aranha, graphically portrayed the situation when he said at the Cleveland Council of World Affairs last January, "The United States has more than one-half the world's income to take care of only one-fifteenth of the world's population and one-nineteenth of the world's area. This means that while your national income per capita is approximately $1117, the average income of almost two billion other people is only $30 per capita per anum." Canada, with a population under 13 million, has an annual average income of around $775 per capita..

The wealth production and consumption of the United States and Canada is so far above the rest of the world that this continent is the envy of all other lands. Nowhere in Europe, Asia, Africa or South America has there ever been the abundance of food such as has been enjoyed almost continually by North American people. The truth is that we North Americans do not appreciate how well the most of us are fed, clothed and housed, the freedom we enjoy, and the absence from fear of the invasion of our rights by governmental secret police bodies.

Our democratic system of living and doing business has its defects, but it cannot be denied that it has produced the highest standard of living for the mass of the people that the world has ever known. No autocracy in all the world's history has been able to produce the abundance that free men in a free country and under democratic government have acheived in North America.

WHEAT FROM THE AIR

An interesting and novel experiment in agricultural technique is being carried out in Britain today. Wheat is being sown from the air by spraying it from a low flying plane. This enterfor the assistance of agriculture has prising way of harnessing air power for its object overcoming the results of the serious holdup in farming operations—and spring sowing in particular—caused by the calamitous weather of the last six months. The experiment is taking place over an area fifty acres in size. The plane will be flown at an average height of 40 feet and will be carrying five tons of wheat seed. This will be scattered over the land through bomb apertures in the bottom of the aircraft and the force of the wind will do the work of spreading the seed evenly over the fields. This operation will be followed up by harrowing with mechanical tractors.

Signs Mislead Search fot E. B. Bottles

PRANKSTERS RESPONSIBLE SAY AUTHORITIES.

Crude signs reading "Empties Was here" which are mysteriously appearing in basement corners and wall closets of homes all over Alberta are hindering authorities in their search for E. B. Bottles. Pranksters are believed to be responsible.

Authorities at Deliveries Limited, who are conducting the search for E. B. Bottles, alias "Empties" who escaped from work in the brewing industry, said that such tactics only tend to lull citizens into relaxing their lookout for the fugitive. They stated that "Empties" may return to hiding in basement corners and closets which have recently been cleaned, in the belief that a search of these areas will not be repeated.

The present difficulty in supplying bottled brewery products was cited as evidence that "Empties" must be brought to justice and put back on the job at once.

Deliveries Limited are offering a reward of 20 cents per dozen for the return of the fugitive. Should Bottles be captured in a rural district, freight agents have been authorized to take the culprit into custody and arrange transportation to the nearest Deliveries Limited depot, without charge to the person or persons apprehending the fugitive. Bottles may also be turned over directly to Deliveries Limited depots at Calgary, Edmonton, Camrose, Lethbridge, Medicine Hat, Drumheller, McLennan, Blairmore or Banff.

LANGDON NOTES

— By G. E. W. —

Miss Barbara Anderson, bride-elect of June, was guest of honour at a miscellaneous shower held in the W.I. hall last Wednesday afternoon. The long tables were attractively arranged with pink and white streamers, and different colored spring flowers. A smaller table, decorated with pink and white with a canopy of the same colors, was used by Barbara to unwrap her many lovely gifts, these being loaded in a 'covered wagon' drawn to her by Doreen and Billy Crilly.

Before the sixty guests sat down to the tables to enjoy a delicious lunch, Barbara thanked her many friends and neighbours for the lovely gifts, also Betty Crilly and Charles Bates who played and sang during the afternoon. Best wishes, Barbara.

The community extends to Mrs. E. T. Moe their deepest sympathy in the loss of her dear sister, whose sudden death occurred in New Mexico last week.

The Langdon Prairie Pals held their regular meeting in the hall last Thursday evening. Joan Kernaghan presided. Plans have been made for the club activities and they are waiting for instructions from Mrs. Drake of Vegreville. Lunch was served by the committee, Betty Crilly and Clara Nicholson. Mrs. R. H. Blue, convenor was present, and it is hoped that a full report will be available at the next meeting.

Last Sunday morning 8 Rebeccas and 12 Oddfellows marched to church where they held their annual Sunday service. The Rev. S. R. Hunt conducted the service.

We are very sorry to have to report that Mrs. K. Albertson Sr. is at present a patient in hospital in Calgary. We hope for her continued improvement, and that she will be home again soon with her family.

NOW IS THE TIME !

For The Community To Build a Memorial

The Strathmore Lions Club wish to endorse the spirit of the Community in honoring the men who so willingly offered their lives for their country in the hour of great peril, and are convinced that a suitable memorial should be erected for that purpose.

The Lions Club agrees that something of the proposed project would be a living memorial, and would help to build up a stronger and healthier nation, both physically and mentally, that the Youth of our Country, who are to inherit the leadership of our Community, may be more fitted to do so by being strong and vigorous, through their opportunity to indulge in good, clean, healthy sports.

Our Club had this idea in view when we went out for our Swimming Pool. Let us all get together now and make this district one fit for people to live in, and at the same time be a living memorial to those who paid the supreme sacrifice.

The Youth of Today are the Leaders of Tomorrow.
Let us give them the encouragement to fortify them for that position.

We, The S'more Lions Urge YOUR Support

"Well, it's this way," replied Jim Fonger, "If I'd told him the time, he might have got chatting, then we might have had a drink together, and in the end I might have asked him home to supper.

"What do I say?" thundered the old lady. "Why, man, if you hadn't smoked, you might have been seventy by now!"

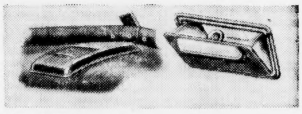
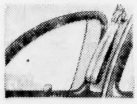
my Husband asked my choice

...and I said CHEVROLET

"Why was Chevrolet my choice? Because, like most women, when I shop my one idea is to get the most value for my money—and Chevrolet is the car that gives you just that. As far as beauty, comfort, and all-round quality are concerned, Chevrolet is way up there with the *big* cars. Yet when it comes to price—well, the price is so much lower it's hardly believable. And another thing I like—the upkeep cost won't strain our family budget! Yes, my choice was Chevrolet, and my husband says I couldn't have chosen better.





Big Car value in small details, too! Most Chevrolet models have retractive assist straps, ventilating rear-quarter windows, ash receiver set into the top of the instrument panel, and either one or two in the rear passenger compartment.
